

April 19, 2021

Dear PGA WEST Residential Association Homeowner,

The Association's Architectural Committee is presently seeking two new Committee members. This Committee is one of the Association's most active Committees. The members conduct monthly meetings, year-round; however, each member also has responsibilities that require site visits and documented observations, which are discussed at the monthly Committee meetings.

The primary goal of the five-member Architectural Committee is to ensure that exterior home improvements maintain the architectural integrity of the Community and meet the aesthetic requirements as set forth in the Association's governing documents and guidelines. Association staff assists the Committee and acts as liaison between homeowners, their contractors and the Committee.

Serving on the Architectural Committee presents an opportunity to interact with fellow homeowners and Association staff, become more acquainted with the many building styles and architectural features within Res I, learn how the Association's governing documents and state and local building codes effect architectural improvements, and contribute to the preservation and beautification of our community.

If you would like to consider serving as a volunteer on the Architectural Committee, please reply to this email and we will contact you to schedule a meeting to further discuss the possibility of joining this important Committee.

Respectfully,  
Dean Rivale, Chair  
For the Architectural Committee  
PGA WEST Residential Association
